2013	MCSO (Microsoft Certification for software development)	Iran, Kahkeshan-e Noor
2017	Scrum Master	Iran, Scrum Iran

COMMENTS

I am a data and programming lover, with a fast learning personality. With a rational mind, I always divide a huge problem into many micro problems and find a suitable solution for each one. I have valuable experiences on developing, maintaining and agile team coaching in enterprise software solutions (like ERP) in huge companies. Although I have over 13 years of experience as a full stack developer and Scrum master, in the recent years I have begun working in the field of Data Science. I also have done some international projects for Calgary university and Chicago Stock Exchange in the platforms of .Net (Core and MVC), Sql Server and Python.
